

Aligned Bill Brief - Senate Bill 302

Bell-to-Bell Student Device & Communication Act

SB 302 requires school districts and accredited nonpublic schools to restrict student use of personal electronic devices during instructional time and set clear rules for staff-student communication. It establishes statewide limits on staff-student social media communication while allowing local flexibility outside instructional time.

WHAT SCHOOLS MUST DO

- Prohibit personal electronic device use during instructional time
- Require devices to be turned off and securely stored away from students
 - Allow devices to be left at home or in vehicles on school property
- Establish enforcement and disciplinary procedures
- Provide a school-designated phone or device for parent contact
- **Prohibit all** private or direct staff-student communication on all social media platforms

SB 302 does NOT:

- ✗ Dictate a specific storage method or discipline
- ✗ Apply to virtual schools

WHAT SCHOOLS MAY CHOOSE TO DO

- Limit or prohibit devices at school-sponsored activities or events outside instructional time
- Approve specific social media platforms for official school use, as long as communication remains public and one-way

Bell-to-Bell Student Device & Communication Act

STAFF-STUDENT SOCIAL MEDIA RULES

Schools must prohibit private or direct communication between employees and students via social media for official school purposes

- Only public, one-way communication is allowed
 - Announcements
 - Event information
- No DMs, private messages, or two-way communication

REPORTING & EXEMPTIONS

- Certification required by September 1, 2026 confirming adoption of required policies
- Does not apply to virtual schools
- **Device use must be allowed if:**
 - Required by a student's IEP or 504 Plan, or
 - Approved by a licensed physician for medical necessity

What is “Instructional Time”?
